

Client

IDS client is among the six largest university publishers in the United States publishing approximately 200 new books and 40 multi-issue journals each year.

Client Requirement

The client was looking for a **reliable vendor partner to assist in their book title typesetting and e-Publishing production.**

- A prerequisite was that the vendor should have **previous exposure** to providing similar services and should have the **skilled staff** with background and understanding of the services, backed with **strong process intensive workflows and infrastructure** necessary to support global clientele requirements.
- IDS were invited by the client to participate in their **global RFP** aimed at assessing vendor **pre-press publishing and e-conversion** capability, capacity and skills deploying **XML and non-XML first workflows.**

IDS Solution

- Based on a **careful assessment** of IDS capability of providing **customized technology driven pre-press and editorial solutions**, IDS were selected by the client as their vendor partner.
- To date, IDS has successfully typeset **more than four hundred titles** for the client and converted more than **five hundred titles to e-books.**
- Based on IDS performance, IDS were further selected for providing **"Full Service production Work Flow"** for end to end processing of book titles including highly complex science titles.
- **IDS services have been highly appreciated by the client.**
